PASSPORT
USER GUIDE
Euromonitor International’s Passport is an integrated online information system providing business intelligence on industries, countries and consumers. Its simple to use interface makes it easy to find relevant research:
• Internationally comparable statistics
• Forward-looking analysis from global, regional, country and company perspectives
• Insightful comment from expert industry and country analysts

Understanding the homepage

The home page provides quick access to the functions and resources you need most.

HOME: Return to your homepage from anywhere on the site

MY PAGES: Allows you to see an aggregation of all your content at once, manage your profile, and access to saved research and downloads

SEARCH: allows you to find data in the category tree

HELP: Access the help file and glossary of terms

The TOP NAVIGATION BAR provides quick access to the latest research

Industries: access to articles, key trends and latest reports

Countries and Consumers: access to economic, demographic and marketing statistics for 208 countries along with reports and comments on consumers.
STEP ONE: Select Categories

These symbols indicate the content available for different categories:

- Indicates statistics, analysis and info sources are available.
- Click the icon to delete categories from your selection.
- Click to select geographies.
- Double click a category name to select all sub-categories at one level below.
- Click the + icon to expand categories in the menu.
- Select the category checkboxes to add them to your search query.
- Click the icon to delete unwanted items.

STEP TWO: Select Countries

Predefined geographical selections are listed here. For example, click on BRIC to select Brazil, Russia, India, China.

Takes you back to the categories page.
Clears the selected items.
Once you have built your search query, click run search to generate your results.
Understanding the results page

The results list contains all the data matching your search criteria. You can view: All Results, Statistics, Reports, Analysis and Sources and create a personalised results list.
